

# MAINE COMPOST TEAM

## VALUES STATEMENT

We take pride in what we do and believe we can make a difference as a team through our direct actions by:

- \* providing a multi-faceted service with education, technology, project planning and regulation
- \* helping generators and handlers solve their waste management problems
- \* addressing emerging issues before they become big problems
- \* providing a unique team synergy, that the whole of our team is greater than all of us individually
- \* our common purpose, providing a link among public agencies
- \* improving agency effectiveness at no added taxpayer expense
- \* supporting an emerging industry in which Maine is a proven leader
- \* providing leadership in the composting industry and contributing to its evolution
- \* being a resource for compost information and public relations for Maine
- \* enjoying our work and passing on that attitude to others
